

**2020 CITY OF ROCKS PIONEER ENDURANCE RIDE –  
AERC Sanctioned  
10th Anniversary!**

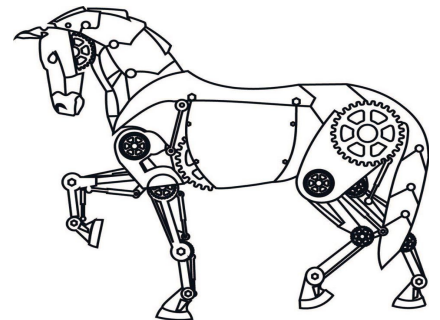

Come join us for this spectacular ride at the City of Rocks National Reserve and Castle Rocks State Park. The park has amazing rock formations and scenery, as well as a rich pioneer history which you will experience on the trail. We will have marked trail rides as well as 25 and 50/55 mile rides each day. There are plenty of things to do for families and fun. Durfey Hot Springs has swimming and soaking pools for every temperature preference (be sure to bring your swim suit!). Try the Great Pizza at Rock City, have a steak dinner at Almo Creek Inn, and explore the trails and scenic spots.

Basecamp is a large field adjacent to the City of Rocks National Preserve, elevation 5500 ft. The trail footing in this area is very good, with just a few rocky sections - it is NOT a rocky ride! City of Rocks is known for its botanical diversity - you'll see cactus, pinion pine, sagebrush, aspen and sub-alpine fire - all on one day's ride! The wildflowers should be in full bloom in June!

City of Rocks is the first leg of the Iron Horse Challenge:
